EDUCATION

University of Southern California

B.F.A. in Game Development and Interactive Design, School of Cinematic Arts

Minor in Video Game Programming, Viterbi School of Engineering

Minor in Music Recording, Thornton School of Music

GPA: 3.92 / 4.0

Los Angeles, CA

Expected Dec 2027

SKILLS

Languages: Mandarin (Native), English (Fluent)

Technical Skills: Unity, C#, Max/Msp Rust, C++, Studio One, Soundly, Pro Tools, Logic Pro, Python, Unreal, Perforce, Git, FMOD, Wwise, VS Code, Rider

Interests: Music (Electric Guitar, Bass Guitar), Badminton, Gaming

EXPERIENCES

Dreamcather

Technical Audio Designer

Los Angeles, California

Dec 2025 – Present

- **Synthesized** 10 sound effects in preproduction; **integrated** audio in **Wwise**; **scripted** game-audio logic in **C++**; **built** the foundation for an **online game audio** and **voice chat system** in close partnership with designers.
- **Integrated** RNNoise for real-time player voice denoising; **mixed and built** spatialized, immersive soundscapes.

Sisyphus's Worst Day (again)

Lead Technical Audio Designer

Los Angeles, California

Aug 2025 – Jun 2026

- **Design sound effects** in Studio One for diegetic gameplay and non-diegetic UI; manage sound source files using **Soundly**; **implement** and mix sounds in **Unity** using **FMOD**; use source control software **Perforce**.
- **Lead** a team of 5; **structure** the production process; **architect** APIs for the engineers.

Mantle

Lead Sound Designer

Los Angeles, California

Sep 2024 – May 2025

- Partnered with the lead game designer to **define sound requirements** and **create an audio asset list**, managed in **Excel**.
- **Designed 100+ sound effects** in **Logic Pro**; the project was exhibited at the **USC Games Expo** and released on **Steam**

Forest Fear

Lead Audio Engineer & Game Designer

Beijing, China

Feb 2025 – May 2025

- **Produced ambience, music, and sound effects** in **Logic Pro**; integrated audio in **Wwise**; programmed **interactive music**, SFX triggers, and special-effect logic; created cutscene video with **Unity Recorder**.
- Contributed to the game concept, **refined** and **built** the level structure, and programmed core **gameplay logic** supporting the main mechanics

PROJECTS

AI sDesigner Io

Developer

Los Angeles, California

May 2026 – Present

- **Built a sound-design platform** through an agentic engineering workflow; **designed an AI pipeline** using Qwen, GPT, and ElevenLabs APIs for **end-to-end automated sound-effect generation**.
- Improved sound-design efficiency by nearly 70%; supported creative ideation; developed an image-to-sound workflow.

CamSynth

Developer

Los Angeles, California

Jun 2026 – Present

- Developed a camera-driven synthesizer in Max/MSP and Jitter; designed an image-analysis algorithm based on convolution edge detection and began developing the corresponding synthesis methods.
- Mapped real-time visual density to synthesis granularity and used frame-to-frame change analysis to adjust synthesizer parameters dynamically.

Unity Audio Callback System

Developer

Los Angeles, California

Dec 2025 – Apr 2026

- **Integrate** Unity built-in system and audio programming methods to create an **audio-event callback** system; **emulate** audio middleware; **increase** audio-related work efficiency by 50%.
- **Architect** system UI to create a user-friendly experience; **build an interactive timeline-like** visualization of audio events.

CrossfaderER Audio Tool

Developer

Los Angeles, California

Oct 2025 – Dec 2025

- **Automate** looping audio crossfade workflow, **reducing** the time required by **90%**; **provide** various process options.
- **Develop** a desktop app using the .NET Framework with Avalonia; **program** a Unity tool using **C#**.
